Subject: Supplemental Well M57-O Bond Log Discussion
Attachments: ATT00001.txt; M57_CBL_Labeled_20181108.pdf; M57 Bond Index Table_Labeled.pdf; M57-O_Revised_Diagram_20181107.pdf

Good Morning Nancy,

Per our conversation a few days ago, I have further reviewed the bond log index for Supplemental Well M57-O. I've attached the bond log itself and the bond index table with highlighted notes for your consideration. After my further review, I'm confident that the bond log index meets EPA's criteria (>80%) and it's especially good at the Middle Fine-Grained Unit/Lower Basin Fill Unit contact, throughout the MFGU and up into Upper Basin Fill Unit where it reaches over 99.8%. Please review the attached information and call me if further discussions or information is needed.

Best Regards,

Dan Johnson VP | General Manager
